

# Exceller Open

## Publish a Thesis

### ► What is Exceller Open Access Publishing?

Exceller Open is a global online platform where the author can make a publication available to just anyone on the internet by allowing them to access, read, refer or even download the work, primarily with the purpose of spreading an idea, judging readers' reaction with novel approach and spreading social message for overall improvement of mankind. The content is free for all on this open access platform.

### ► Why Researchers Choose OA Publishing?

Authors throughout the world are increasingly choosing to publish open access for better visibility, wider readership and stronger impact. Open access publication allows people to discover a book easily and access it for free. This is surely a very effective way of educating the individuals on a global scale.

### ► Why Researchers Publish Their Thesis as a Book?

1. **Preserving Knowledge:** Researchers have a solemn responsibility of preserving the fruit of their lifelong endeavour. Exceller Open Publishing gives authors a unique opportunity of distributing their research online.
2. **Documentation:** A piece of research is best preserved and used when it becomes available as a book. In such case, it can also be referred by colleagues and junior research fellows pursuing the same field.
3. **Enriches Research Field:** Great thinkers have a responsibility for their area of study. Publishing a thesis enriches the specific research area and adds impetus to the existing mass of research. As a knowledge platform, OA publication opens up new avenues for the researchers to carry forward their own line of work and create a legacy.

### ► Process

Exceller Open Access publication takes the manuscripts through a smooth publishing route to help them reach a global reader base. The ultimate objective of this process is to improve quality in terms of accuracy and readability.

1. After receiving the manuscript we will send a confirmation e-mail to the author.
2. Manuscripts will be checked for any plagiarized content
3. The manuscripts will be sent for primary quality check by the Editor.
4. The manuscript will be sent for double blinded peer review.

# Exceller Open

5. Based on the review result, the manuscript will be accepted, rejected or sent for re-submission. This decision will be communicated to the author.
6. In case of acceptance, we will send a payment request to the author.
7. We expect the authors to meet the deadline for payment as a gesture of cooperation with us.
